

## What is Redesign?

*Most of us own things that we really love, things that express our unique personalities. But sometimes we just don't know how to pull those things together to create the atmosphere that we'd like in a room.*

*Room redesign is the art of using things that you already own to create a new look and feel in a room of your home. A look and feel that's comfortable or elegant or fun.....or whatever you want it to be.*

## Services

### Consultation

We'll spend this time discussing whatever decorating issues or ideas you may have. Perhaps you have a look you'd like to achieve, but don't know how to create it. Or maybe you'd like suggestions for colors, furniture, window treatments or accessories. Whatever it is I will help you find a way to make your home express your individual tastes and personality.

### One Day Room Redesign

I'll start with a quick preview of the room(s) so we can discuss what you like or don't like, how the space is used and what feeling you'd like to express. We'll schedule a time for the redesign.

A single room redesign usually takes 3 to 5 hours. I'll empty the room as much as possible, including furniture, artwork, lighting and accessories. Then I'll begin to recreate the room from scratch by rearranging the existing furniture, accessories and artwork. With your permission, I'll 'shop' your home to find treasures that will help to create the look you've wanted.

I'll leave you with a list of suggestions for future fine-tuning.

### Staging Your Home for Resale

Let me give you the tips you need to help you get top dollar for your home. I'll look at your home, outside and in, and create a detailed checklist of ideas and suggestions that will show you how to emphasize your home's positive attributes and make it more saleable.

### Personal Shopping

Don't have time to go searching for those items you'd like to add to your home? Or just don't like the hassle of shopping itself? Let me do the shopping for you. During our initial consultation we'll discuss the specific things you're looking for and which are most important. Then I'll do the rest. I'll be glad to shop with you if you prefer to help you choose colors for material, fixtures, tiles or anything else you can think of!

### Organizing Service

All of us have areas in our home that we just can't seem to get or keep organized...or we just don't have time to deal with it. I love the challenge of organization! Let me help you organize those messy trouble spots in your home, the ones that make you grit your teeth every time you look at them.

After
